- To recognize effort and improvement, along with achievement, to help improve self-esteem and foster a positive self-image.
- To provide guidelines to make each sport age-appropriate and to ensure proper fundamentals are developed and enthusiasm for the sport is fostered.
- To design each sport program to attract and retain every interested player and raise the level of play of each of these players as high as possible.
- To provide the support and training for parents and other interested adults who take on the responsibility of providing, through sport, these positive lifestyle choices for their children.

Youth Sports Program Philosophy

Youth sports programs are offered at JB Charleston to provide youth ages 3-18 with the opportunity to experience a wide variety of both team and recreational sports in an age-appropriate and safe environment. The intent of these sports is to help each child grow physically, emotionally and socially.

Through Youth Sports, children can develop an enthusiasm for participation which can become the foundation for lifelong interests in being active and fit. The program is dedicated to promoting sportsmanship, development of fundamental skills, teamwork and the support of the athletic and recreational needs of the youth community. It also provides opportunities for parents to contribute to our community by serving as volunteers.

Youth Sports can only run with Volunteer Coaches!

Joint Base Charleston Youth Sports Programs follow **the National Standards for Youth Sports** developed by the **National Alliance for Youth Sports (NAYS)**.

 - Substance Free Environment

clears or until it is safe to leave the fields.

3. If outside at practice or game time and it starts to rain, the YP Sports Director, and/or officials will make the determination to cancel due to inclement weather.

Substance Abuse and Smoking

Drugs and alcoholic beverages are **NOT** permitted at any youth practice or game. Youth Programs Facilities are TOBACCO-FREE areas. Coaches, players, officials and spectators are asked to refrain from E-Cig smoking/vaping, chewing or dipping smokeless tobacco products and absolutely NO smoking is allowed at any time at any practice or game.

Positive Guidance

Positive guidance employs techniques which teach children respect for themselves, for others and for their environment. It provides children the direction and tools necessary for developing positive social experiences with peers and adults.

Guidance practices will include redirecting the child to acceptable activities, using simple and positive reminders to restate the rules, ignoring inappropriate behaviors when applicable, using logical and natural consequences to help children be responsible for their actions (encouraging problem-solving skills in these children), and helping children to identify feelings as well as learn acceptable ways to deal with these feelings.

CYP personnel recognizes children/youth as individuals and respect differing abilities, temperaments, activity levels, and developmental characteristics. No one specific guidance technique will work for every situation; therefore approaches will need to be adapted for each child/youth.

Appropriate Touch

Touch is as necessary as food or water for children/youth to thrive and grow physically, cognitively, socially, and emotionally. Appropriate touch respects the personal privacy and space of children/youth; is nurturing (hugs, giving high-fives, etc.); keeps children/youth safe (separating physically conflicting children/youth, examining cuts/bruises/unusual marks, administering first aid to injuries); and assists with hygiene (face and hand washing, diaper changing, etc.). Remember, the age and individual needs and preferences of the child/youth should always be considered when determining if a touch is appropriate.
